What did he use to glue down the words?	iust Cosmic Shimmer Dries Clear Glue		
i have 2 sizes of white squares, are we using the smaller	we're using the one with just gift boxes. the smaller one		
or larger one?	please		
Which card are we using the red oxide on?	A4 piece of white card please		
This class was AMAZING, I love the products and learned so much and the projects are beautiful! If there is time for other questions at the end, I have a quick question from your Woodware release. There are some pictures in the catalog - on page 58 and 59, I really like the dimension on the bubbles. Donna from Collins gave me a link to one of your videos and I think you used 3D pearl accents. Just seeing if you have any tips or tricks for those perfect baubles.	you can use Cosmic Shimmer 3D accents to create dimentional pearls - any size you like as well! or you can use a bubble craft die which comes in the collection to cut the bubbles from patterned card and shape it with the shaping tool. then just wither use dimensional glue or foam dquare to glue it on the projects. buttons, embellishments - everything goes:)
